# SWIFT

# NEXT GEN SMART AI TRANSMITTER

The Swift is the next generation of smart AI transmitters. It listens for other transmitters, transmits when the channel is clear and avoids collision with other signals. Divers can now pair the Swift with an air-integrated Shearwater computer to complete their ultimate dive computer system.

- Powerful yet only 76 x 34mm in size with a greater depth rating of 200msw

- Provides a clear signal transmission reliably

- LED status indicator for signals

- Allows divers to use multiple transmitters

- Backward compatible with all Shearwater air-integrated dive computers

- Designed and built in Canada
