## Basic Harness

Item # BC1063

This harness utilizes nylon webbing for strength and comfort.

### Packaging contains:

- 1) 11 ft of 2" harness webbing, with stainless-steel grommet
- 2) 4 Stainless-steel Belt Slides
- 3) 2 Stainless-steel D-rings
- 4) 2 Stainless-steel bent D-rings
- 5) 1 Stainless-steel waist-strap release buckle

This Dive Rite Harness fits on all Dive Rite backplates.

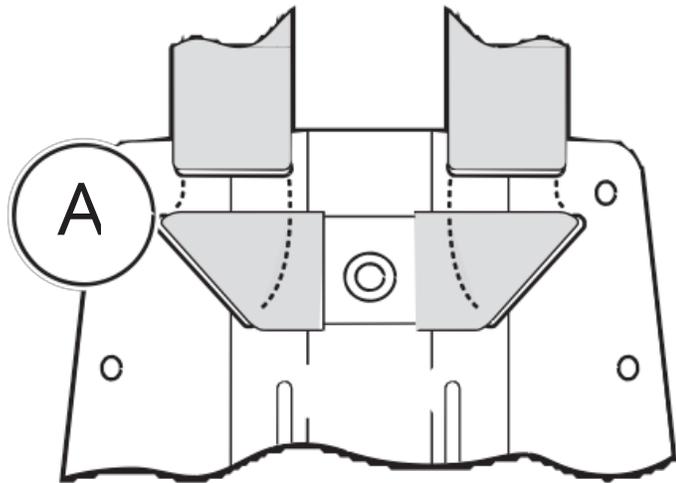

Great for technical diving, where simplicity is the key!

\* \* Crotch Strap not included \* \*

# Threading Basic Harness

**Shoulder Strap Routing**

**Waist Strap Routing**

- 1) Thread the harness webbing through the upper shoulder strap slots (figure A), positioning the webbing so the grommet is over the upper tank bolt hole on the plate.
- 2) Install one 2" belt-slide and one 2" bent D-ring on each side of the webbing, as shown in figure B.
- 3) Thread one tail of the webbing through the waist slot (back through the inner slot, then forward through the outer slot). Repeat this step for the opposite tail (see figure C).
- 4) Install one 2" belt-slide and one 2" D-ring on each side of the webbing, as shown in figure B.
- 5) Install optional crotch strap (not included). Refer to Figure D.
- 6) Install the waist strap release buckle on the same side as the crotch strap loop using the slots on the buckle.
