

DIVE 1ST AID™

Are you ready when they're not?

LIONFISH STING KIT

With lionfish an ever increasing problem, the odds of being stung are growing. Throwing this kit in your dive bag will prepare you to handle this type of injury. This kit comes in a water resistant clam shell case and is packed with all the supplies you need to neutralize the sting, as well as clean and care for the wound. Included in this kit are items like band aids, gauze wraps, elastic wraps, forceps, scissors, gloves, instant hot packs, razors, sterile solution for irrigation, hydrocortisone cream, triple antibiotic ointment, and more. This is a must for any diver who may find themselves diving in Lionfish territory.

STING RELIEF+ KIT

With the potential of being stung or bitten on any given dive, this is a kit no dive bag should be without. We packed this water resistant clam shell case with everything you need to handle any injury resulting from a marine life bite or sting. Included in this kit are items like band aids, gauze wraps, elastic wraps, forceps, scissors, gloves, instant hot packs, razors, sterile solution for irrigation, hydrocortisone cream, triple antibiotic ointment, and more. From neutralizing stings to cleaning and caring for wounds we've got you covered, so you can answer "yes" to the question are you ready when they are not.
